

ARC Keeper Series Product Comparison

Model	Types of Lamps Operated	Input Voltage*	
AK175PRB	Maintains the arc with one 175 W or energy-saving 150 W metal halide probe-start lamp	120VAC, 600 mA, 6 W	277VAC, 800 mA, 10 W
AK250PRB	Maintains the arc with one 250 W or energy-saving 255 W metal halide probe-start lamp	120VAC, 600 mA, 6 W	277VAC, 800 mA, 10 W
AK400PRB	Maintains the arc with one 250 W or energy-saving 255 W metal halide probe-start lamp	120VAC, 310 mA, 4 W	277VAC, 320 mA, 4 W
AK400PRB-SP	For use with installations not providing an unswitched line	120VAC, 310 mA, 4 W	277VAC, 320 mA, 4 W
AK175PLS	Maintains the arc with one 100 W to 175 W metal halide pulse-start lamp	120VAC, 500 mA, 6 W	277VAC, 500 mA, 9 W
AK175PLS-208V	Maintains the arc with one 100 W to 175 W metal halide pulse-start lamp	120VAC, 500 mA, 6 W	208VAC, 500 mA, 9 W
AK175PLS-240V	Maintains the arc with one 100 W to 175 W metal halide pulse-start lamp	120VAC, 500 mA, 6 W	240VAC, 500 mA, 9 W
AK400PLS	Maintains the arc with one 200 W to 400 W metal halide pulse-start lamp	120VAC, 500 mA, 6 W	277VAC, 500 mA, 9 W
AK400PLS-208V	Maintains the arc with one 200 W to 400 W metal halide pulse-start lamp	120VAC, 500 mA, 6 W	208VAC, 500 mA, 9 W
AK400PLS-240V	Maintains the arc with one 200 W to 400 W metal halide pulse-start lamp	120VAC, 500 mA, 6 W	240VAC, 500 mA, 9 W
ARCTIC 175PLS-120V*	Maintains the arc with one 100 W to 175 W metal halide pulse-start lamp	120VAC, 360 mA, 17 W	
ARCTIC 175PLS-208	Maintains the arc with one 100 W to 175 W metal halide pulse-start lamp	208VAC, 360 mA, 17 W	
ARCTIC 175PLS-240V	Maintains the arc with one 100 W to 175 W metal halide pulse-start lamp	240VAC, 360 mA, 17 W	
ARCTIC 175PLS-277V	Maintains the arc with one 100 W to 175 W metal halide pulse-start lamp	277VAC, 360 mA, 17 W	
ARCTIC 400PLS-120V	Maintains the arc with one 200 W to 400 W metal halide pulse-start lamp	120VAC, 360 mA, 17 W	
ARCTIC 400PLS-208V	Maintains the arc with one 200 W to 400 W metal halide pulse-start lamp	208VAC, 360 mA, 17 W	
ARCTIC 400PLS-240V	Maintains the arc with one 200 W to 400 W metal halide pulse-start lamp	240VAC, 360 mA, 17 W	
ARCTIC 400PLS-277V	Maintains the arc with one 200 W to 400 W metal halide pulse-start lamp	277VAC, 360 mA, 17 W	

Probe-Start Models

Pulse-Start Models

* Note: All Arctic models are voltage specific. Standard ARC Keeper models are dual-voltage. All models are UL Listed. Models except Arctic are CSA Certified. US Patent No. 7,091,676
